Peak fused change evidence

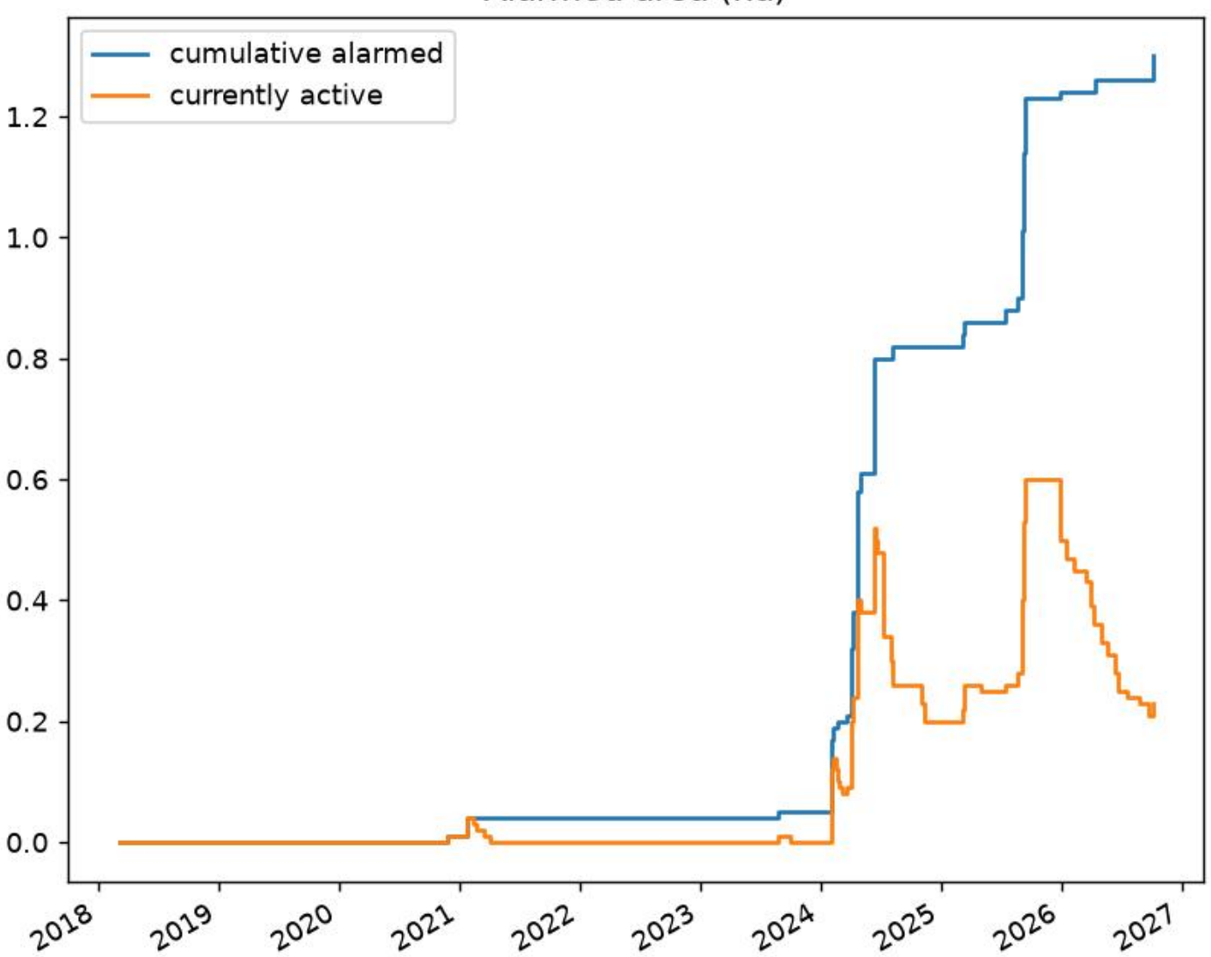

Estimated change onset (alarmed pixels)

Fraction of AOI above threshold, per time bin

Alarmed area (ha)

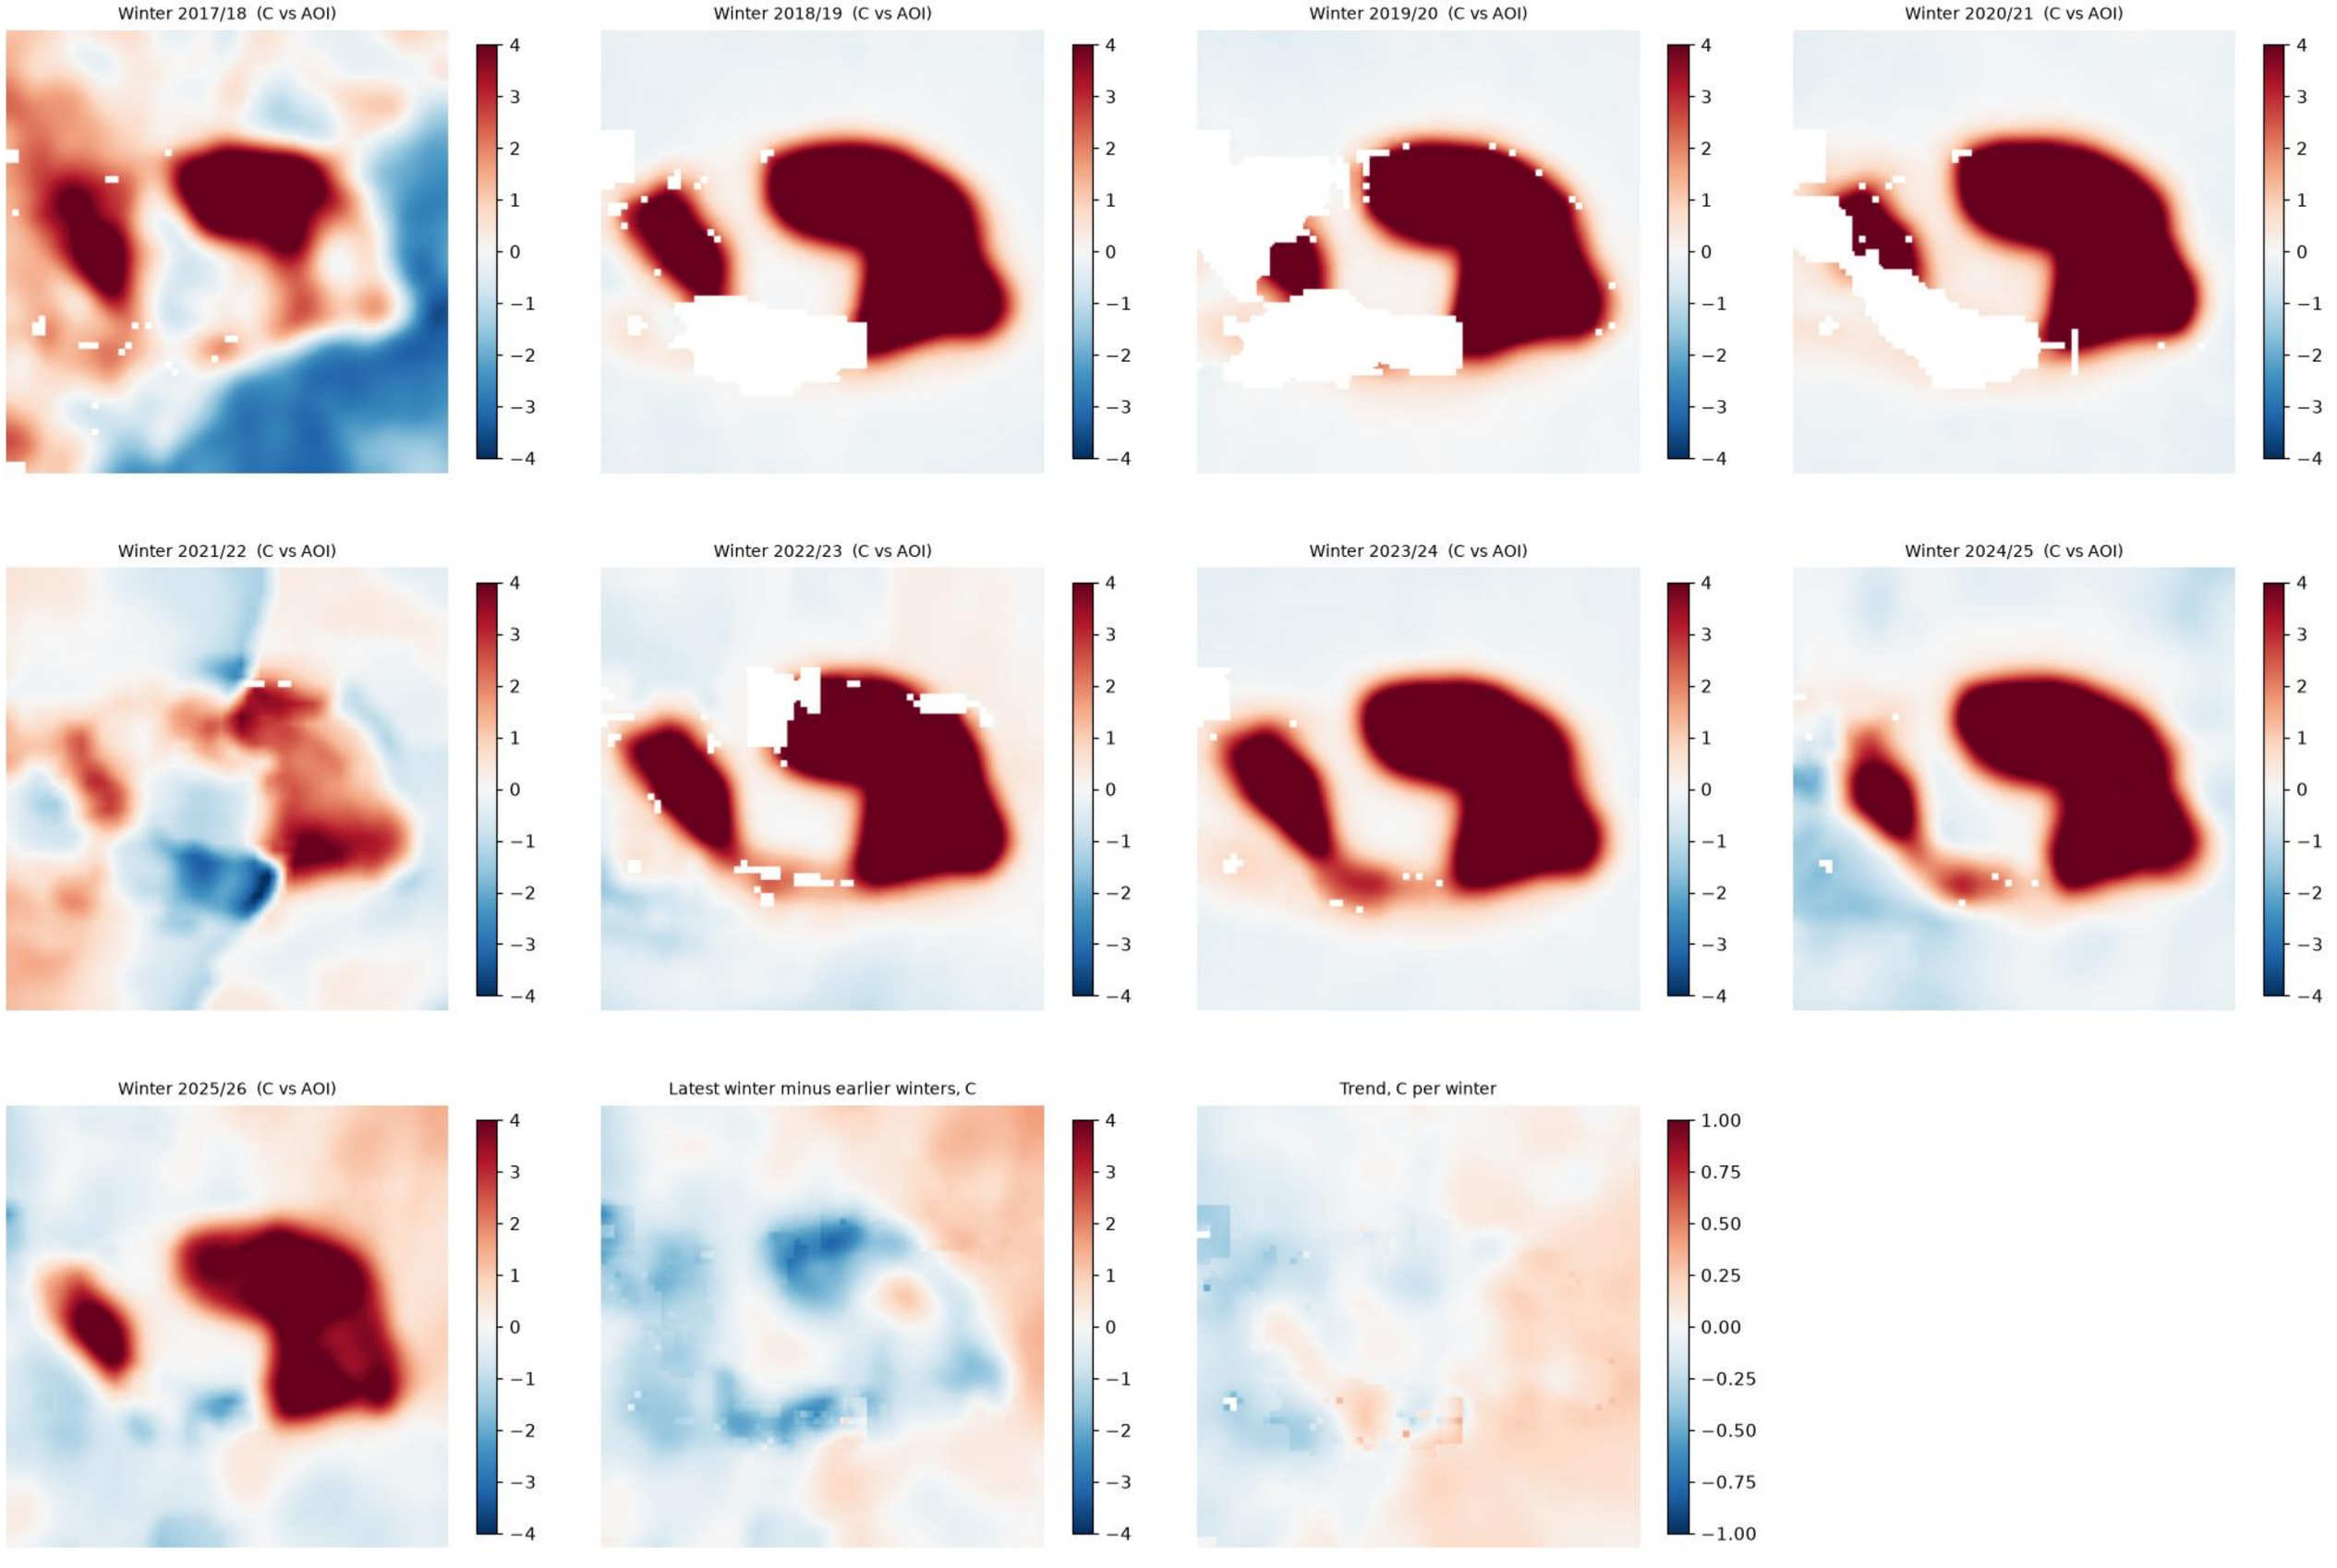

Page 2: sites (points of interest) (not produced this run)

No points of interest are defined for this project.

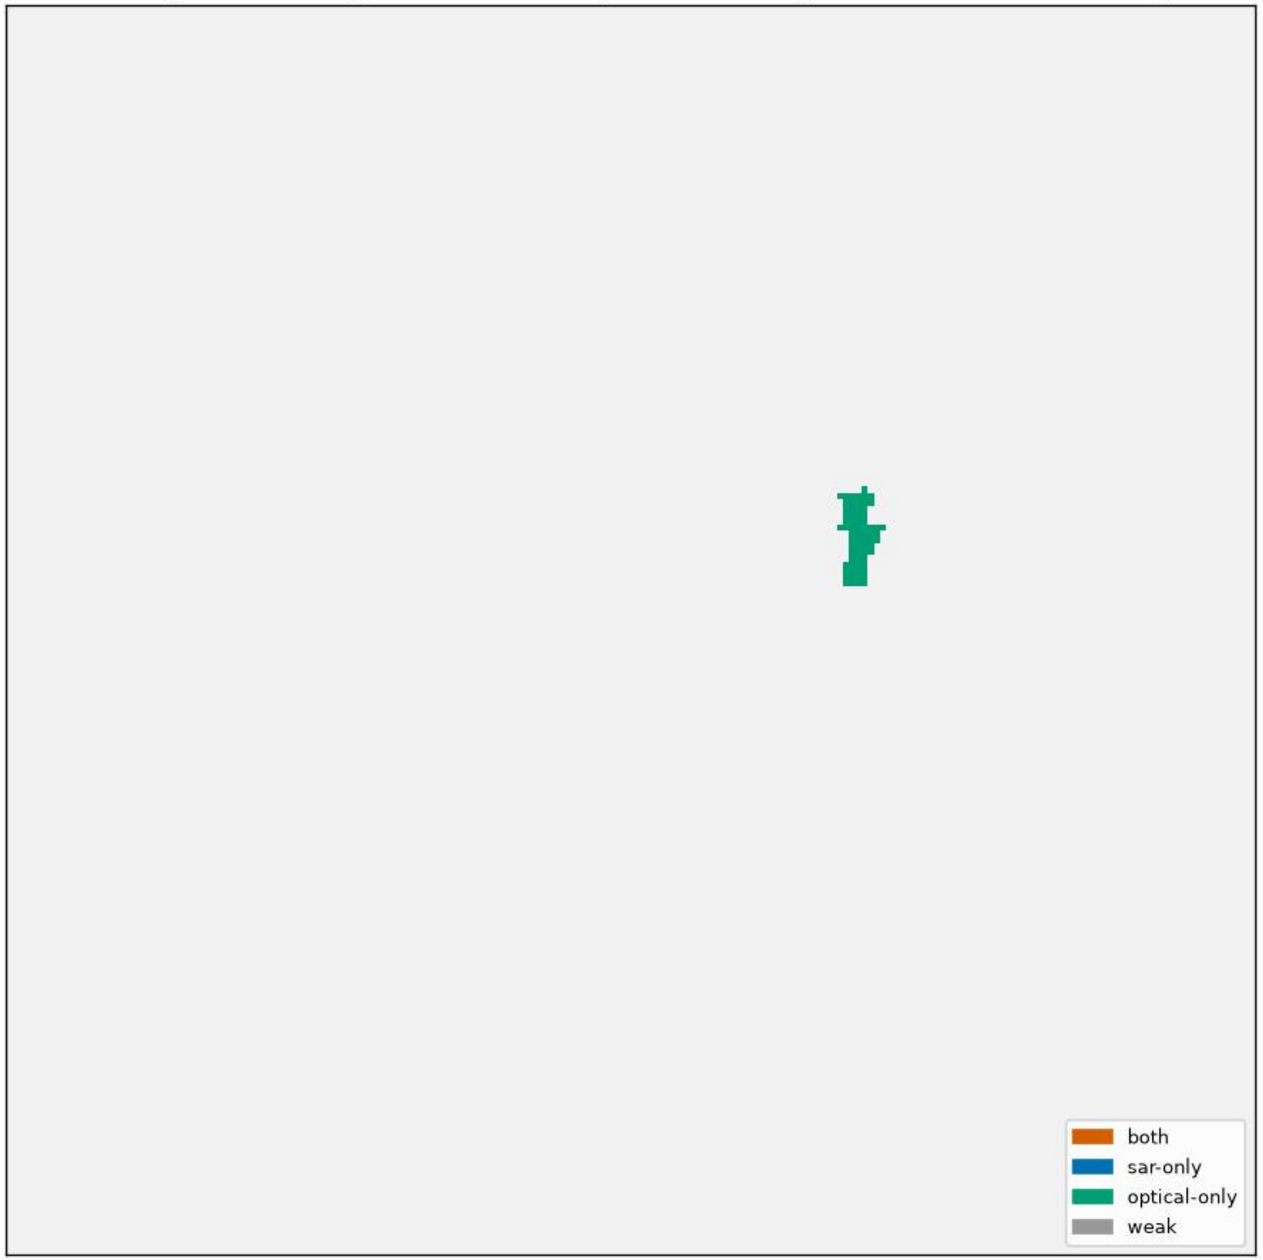

Add them to config.yaml (or answer the questions in `sarfuse new`), for example:

```
zones:
  - {name: main apron, lat: 15.0850, lon: 145.6300, radius_m: 300}
```

Winter Landsat surface temperature relative to the AOI median (red = warmer than surroundings)

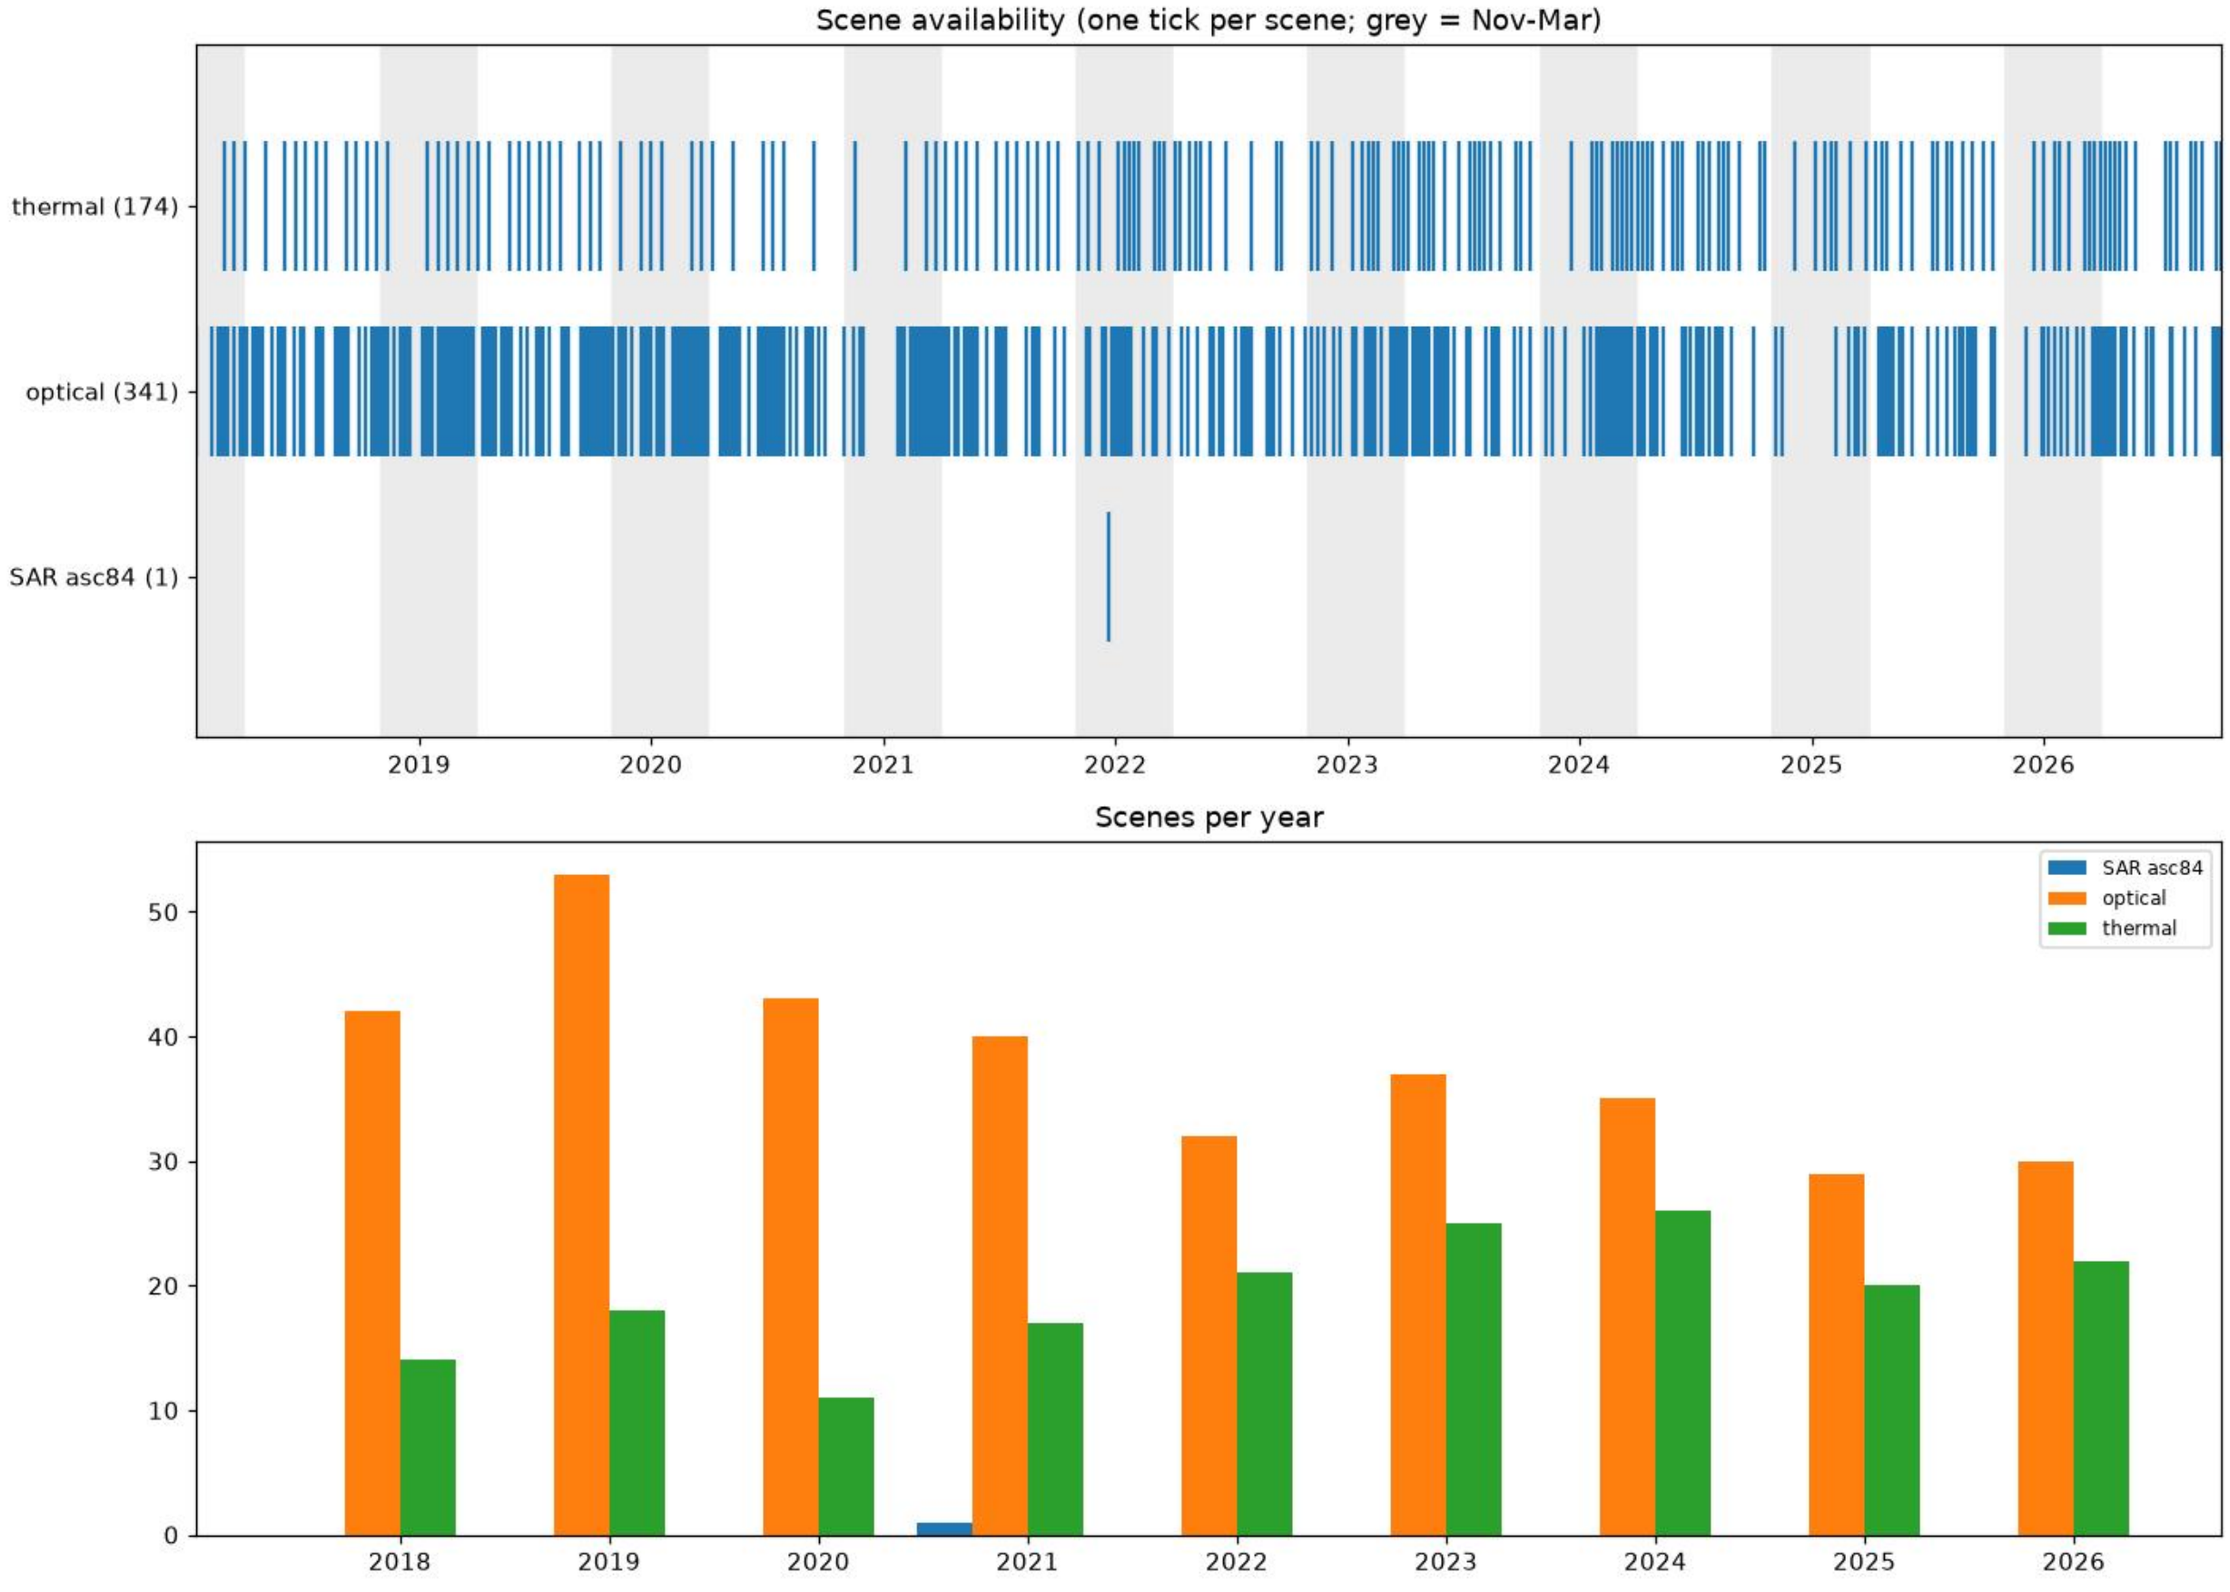

Change clusters by evidence class (numbers = id, clusters of 1 ha or more)

Largest clusters, strongest evidence first

id	ha	evidence	onset	status	VH z	NDVI z
1	0.7	optical-only	2024-03-09	absorbed	-	-6.1
