Page 1: change overview (not produced this run)

Not enough scenes yet for change maps: each radar track needs more than 6 earlier scenes and optical more than 4 clear scenes in the seasons that are scored.

Page 2 (sites), the thermal maps and scene availability do not need a baseline.

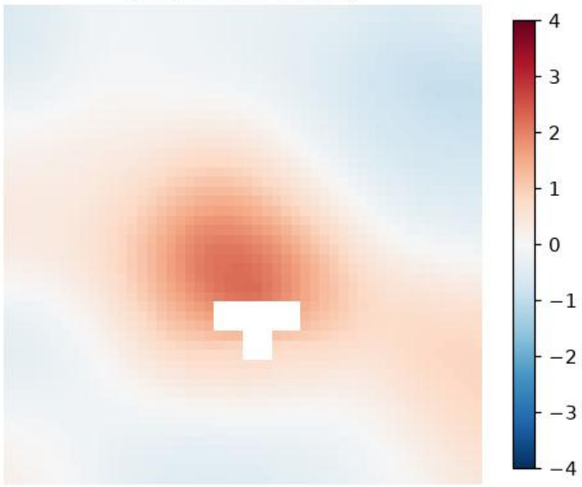

Page 2: sites (points of interest) (not produced this run)

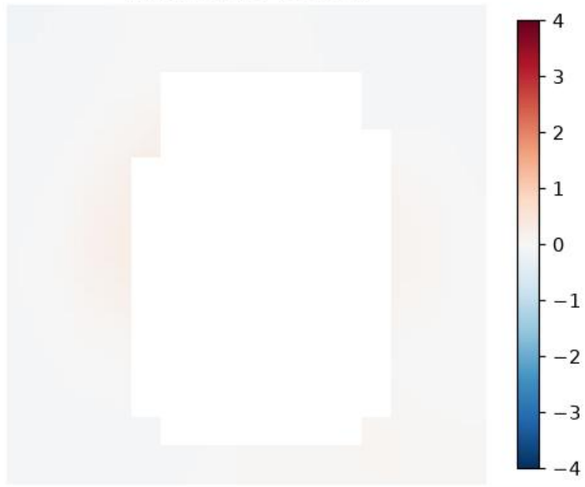

No points of interest are defined for this project.

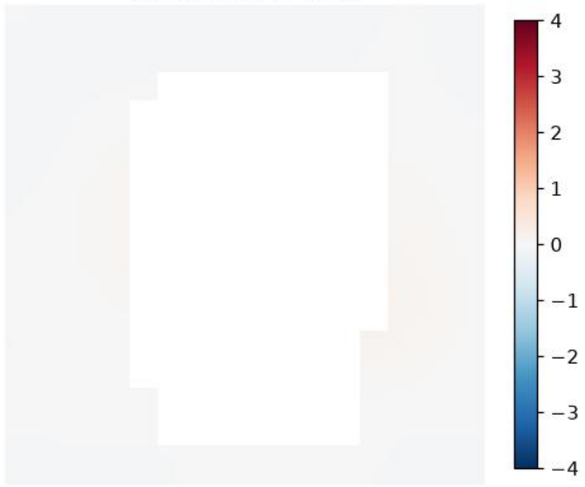

Add them to config.yaml (or answer the questions in `sarfuse new`), for example:

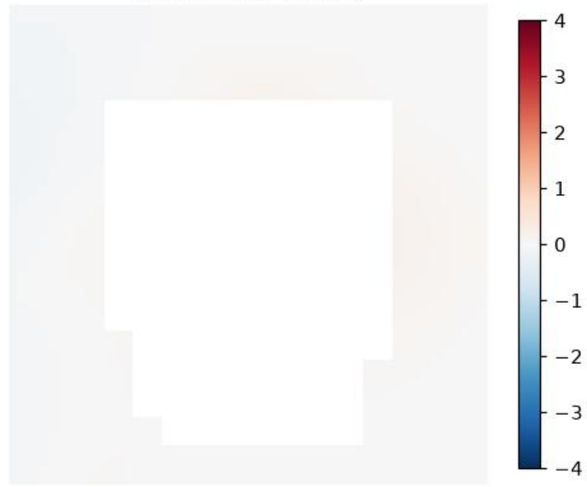

```
zones:
  - {name: main apron, lat: 15.0850, lon: 145.6300, radius_m: 300}
```

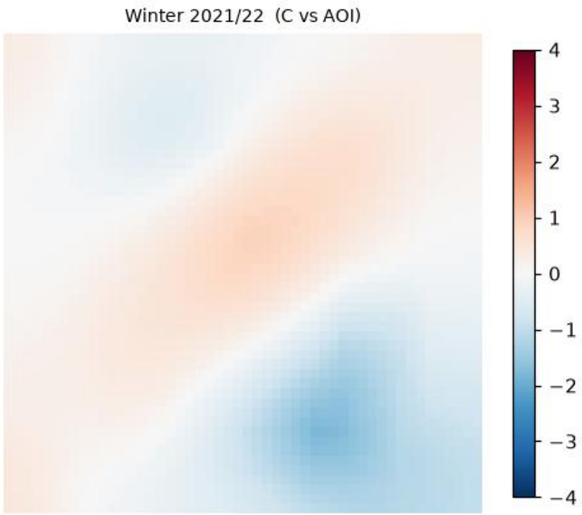

Winter Landsat surface temperature relative to the AOI median (red = warmer than surroundings)

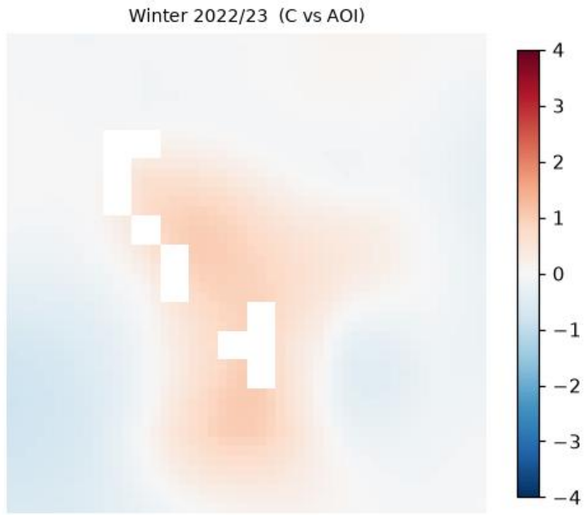

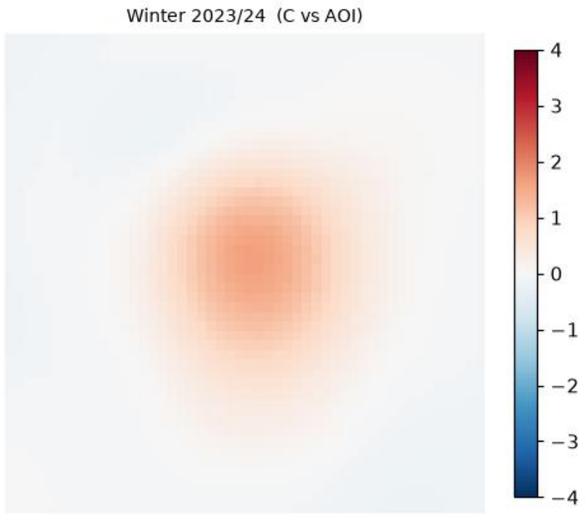

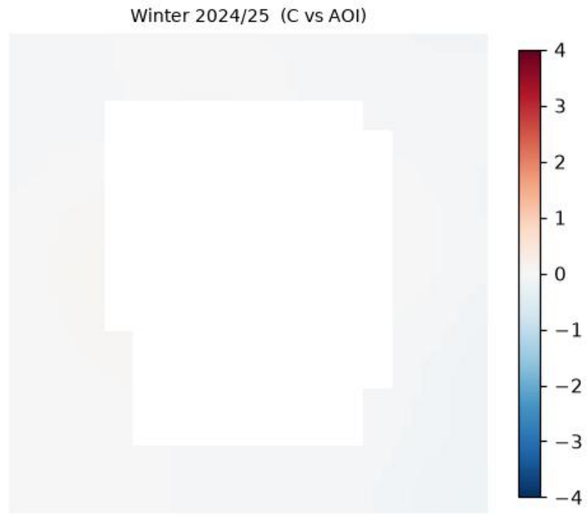

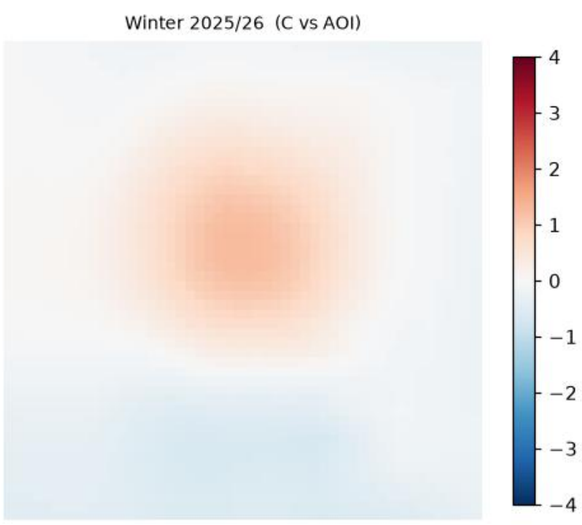

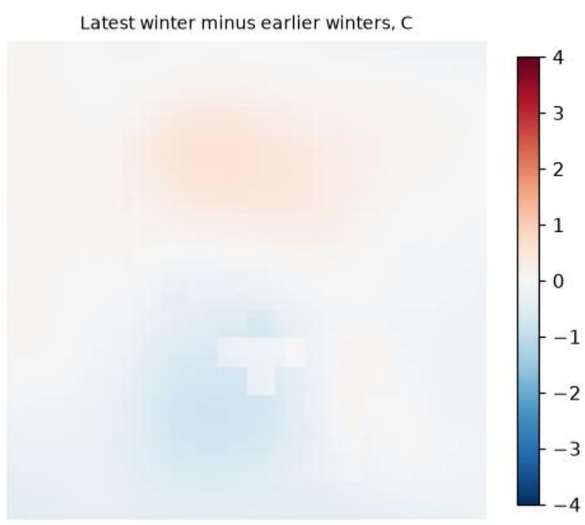

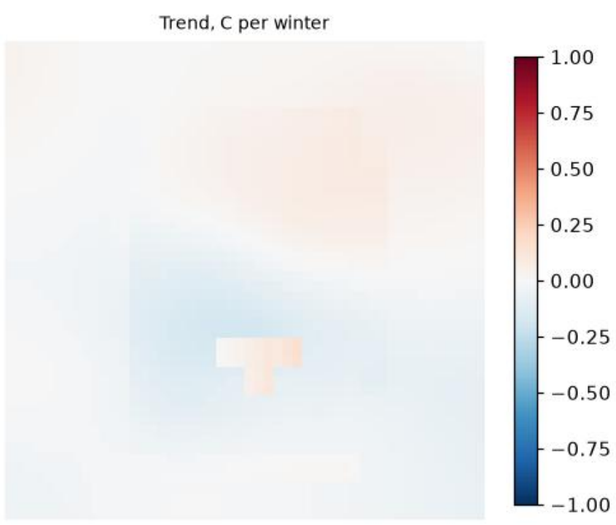

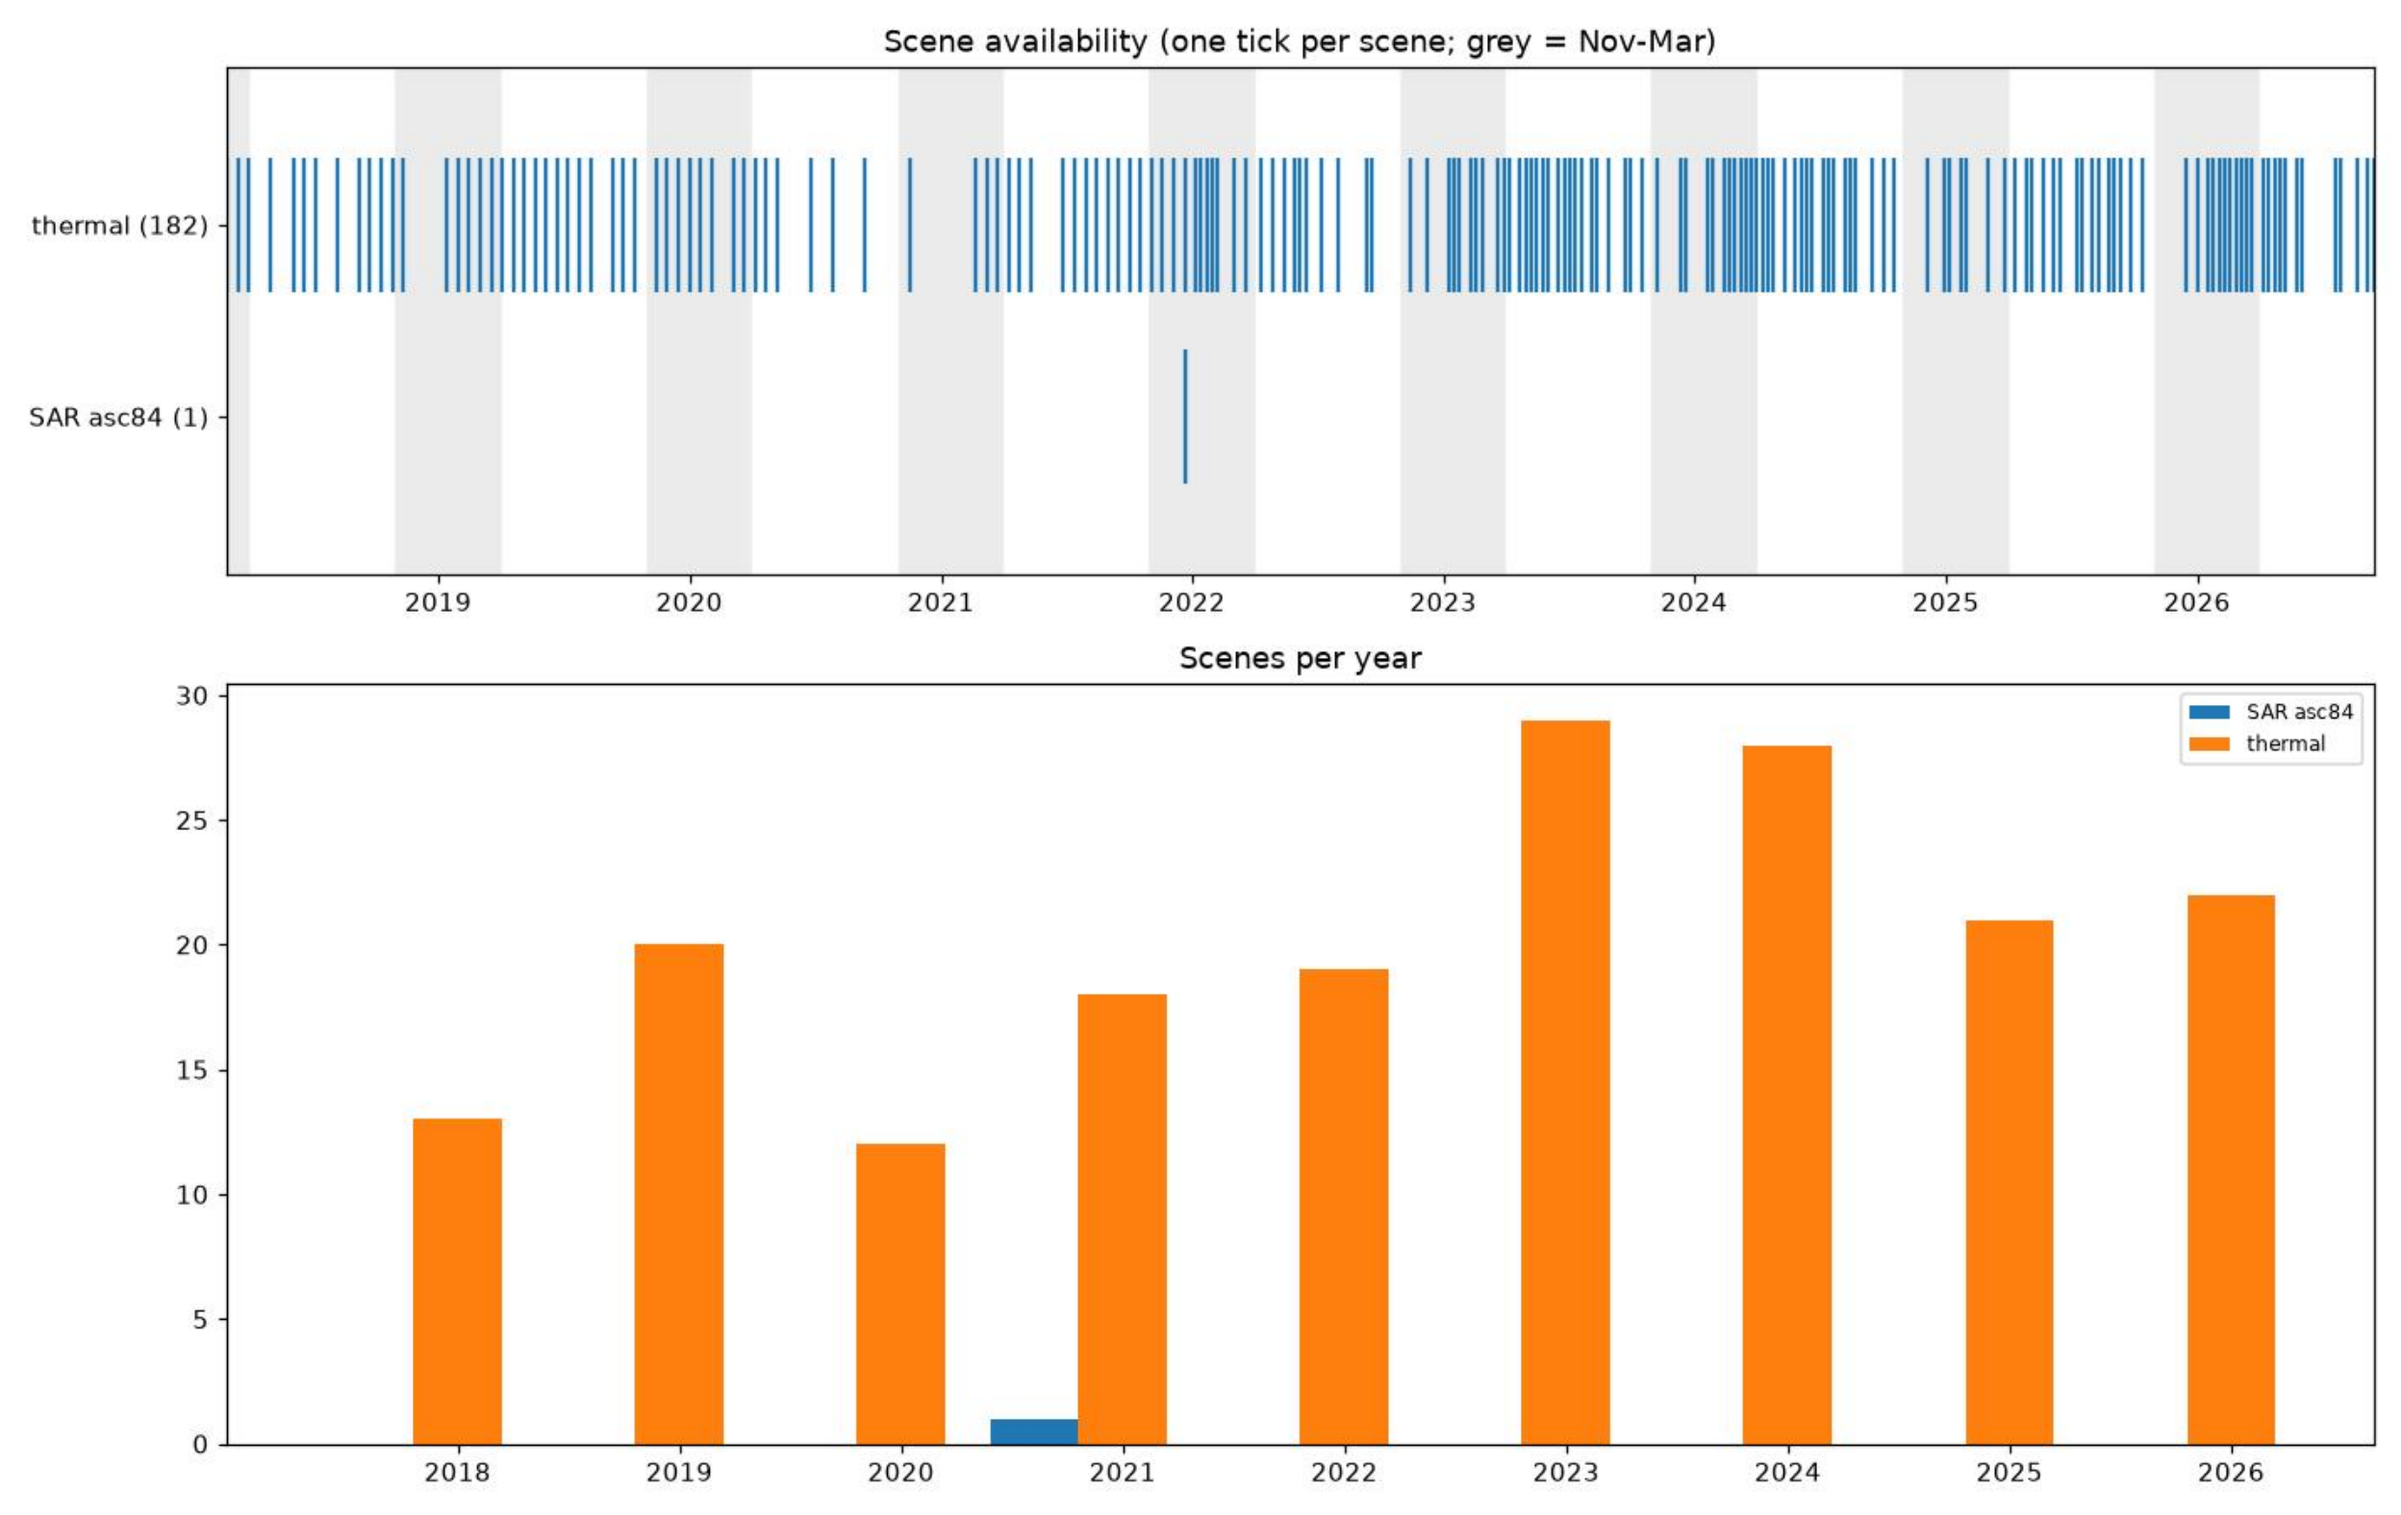

Page 4: change clusters (not produced this run)

Not enough scenes yet for change maps: each radar track needs more than 6 earlier scenes and optical more than 4 clear scenes in the seasons that are scored.

Page 2 (sites), the thermal maps and scene availability do not need a baseline.
